RE-ELECTION OF SENATOR MALLORY.

The following dispatch appears in the Savannah Georgian:

TALLAHASSEE, Fla., Dec. 24.

Editors Georgian and Journal.

The Hon. S. R. Mallory was re-elected to the United States Senate to-day by the Legislature for six years from the 4th of March, 1856.

The vote stood: Mallory, 28; Blank, 10—the latter all cast by the Know-Nothings.

The Legislature has agreed to adjourn on Saturday next.

Yours, &c., C. E. D.

At a time when the Senate has lost so many of its distinguished members, and, under one of those epidemic mutations of party to which the country has always been exposed, is likely to lose several more whose names have ever been a watchword with the Democracy, it is a matter of congratulation that the Legislature of Florida have wisely and patriotically determined to retain, for another term of six years, in the councils of the nation one who has shown himself to be on the most trying occasions a patriot and a statesman, a friend of the Union, and a faithful representative of a State which he has served with equal ability and success. As chairman of the Committee on Naval Affairs, and as a leading participant in several very important debates which have arisen in the Senate during his present term of office, Mr. Mallory has secured for himself a high and enviable reputation before the country, and is fairly and fully entitled to this renewed evidence of confidence and respect on the part of the representatives of the Democracy of his native State.

THE OPEN POLAR SEA.—On the 23d inst., Dr. Isaac J. Hayes, Surgeon of the ship Albatross, and one of those who accompanied Dr. Kane on that memorable expedition which shed such glory on the American name, delivered a most interesting lecture before the Maryland Institute, at Baltimore. The discourse was listened to with intelligent and devoted interest by the audience, and the lecturer's efforts were felt in everything pertaining to this attempt to open up the physical geography of the high polar regions. In speaking of the Open Polar Sea, Dr. Hayes remarked:

The northern terminus of Smith's Strait was yet undeveloped, and every member of the expedition felt a personal interest in wishing that it should be known. Moreton was despatched with the dog team and Esquimaux sleds making its starting point a depot of provisions that had been deposited at the eastern terminus of the Sound the previous fall. The results of this journey have been long and arduous, and a most interesting one from the northwestern angle of the Sound, from ice, and travelling fifty miles along its margin on the icefield, he looked out upon a vast and beautiful scene.

Whether this is an open water space throughout the winter—an open water space throughout the year—is a question which will be decided by the results of this journey. It is a question which will be decided by the results of this journey.

ADDITIONAL BY THE NIAGARA.

Great Britain.—Capt. Hartnell, and the officers and crew of the ship "Herald," from want of time, had to decline invitations to dine with the Geological Society, and other public bodies.

Three thousand persons visited the Resolute after the ship's arrival, and sent \$100 to be distributed among the crew.

A great meeting had been held at Birmingham to protest against the continuance of the war in the Crimea.

The Law in its present form is unjust, oppressive, degrading, and not to be tolerated by a free people. The movement is spreading to other parts of the country.

France.—An editorial in the Monitor on the Neuchâtel affair had attracted considerable attention. It speaks in harsh terms respecting Switzerland.

The Prince of Prussia, presently at Paris, is the bearer of an autograph invitation to the Emperor Napoleon, to visit Berlin in the spring. It is said the Emperor Napoleon has accepted the invitation.

A deputation of Moldo-Wallachian nobles, in Paris, have presented addresses to the Emperor, in favor of a free trade in grain.

The Convention of the French people are advocating the establishment of a government of steamers. The Constitutionnel says that the present state of the money market is such that the State proposed government subsidy to the existing Trans-Atlantic steamers, and adds that government is about to reconsider the question of a Trans-Atlantic line.

It has been suggested that the city of Philadelphia, the City of Philadelphia, and the Lyons, render more than ever indispensable.

Austria.—The state of affairs is reported to be so bad in Hungary that the Austrian Government are to meet in consultation on the subject.

Switzerland.—A Paris dispatch says a friendly power (not named) is understood to have suggested that Switzerland should be required to accede to Prussia's demand for the release of the prisoners in the hands of the Prussians.

The following is a copy of the Address delivered by our carrier to the patrons of the Daily Louisville Times:

CARRIERS ADDRESS.

We rejoice in the birth of another New Year.

Old Year fifty-six is dead, and laid on his bier.

The sorrow he brought us, O, do not remember—Let him be forgotten.

Let us be glad, for he has laid down his weary head, and his joys are ours—then let us be glad.

Only thinking of them—their joys and their sorrows.

A happy New Year to you, dear patrons, and to you.

Your Carrier offers you his New Year Address.

And he wishes to say to you, "God bless you."

And he wishes to say to you, "God bless you."

And he wishes to say to you, "God bless you."

And he wishes to say to you, "God bless you."

And he wishes to say to you, "God bless you."

And he wishes to say to you, "God bless you."

And he wishes to say to you, "God bless you."
